## REVIEW OF MARKETS

## FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, July 22.—To-day's stock market was unimportant and even an insignificant affair. London manifested some continued interest in American securities, marking up prices rather above the point reached on this side, even on the opening rise. The opening advance here quickly succumbed to the sympathetic influence of a reaction in Sugar, which lost something over a point. Heaviness in a few other Indian trials helped to hold back the market, but the bears were no more disposed to operate than the bulls, and the market held suspended near last night's level. The bank statement brought a realizing movement, which carried prices off in some cases from the rest. Rock Island and a few other stocks which have been going up for several days past being most affected. The offerings were all well absorbed and the short session ended with quotations not far from last night's prices. The oppressive heat prevailing had something to do with the extreme lassitude of the trading. The American Indian Oil and the Iowa Central stocks showed advance in prices, and the Fort Worth and Denver City first mortgage bonds rose 1/4 on the acquisition of track-trucking rights between Denver and Pueblo from the Atchison by the Colorado and Southern, which controls the Texas road.

The bank statement showed the surplus reserve increased by reason of a contraction in loans, as was expected, but the loss of \$1 million in cash was a disappointment. In view of the low prevailing rates for money at interior centers, it was expected that funds would have to be attracted to New York during the week, but no such movement is reflected in the bank statement.

The continued high rate of sterling exchange causes some anxiety as well as in London, in view of the lower discount rates in London and the marked disposition of London to buy stocks in New York in the last few days. The sterling rates have only yielded a fraction and still hover within a cent of the gold export point.

Dealings in bonds have been dull and some issues fell away in price, but others moved upward on active demand. U. S. 3's registered and the 4's advanced 1/4, and the 4's registered 1/4, and do coupon 1/4 in the bid price.

Total sales of stocks were 115,000 shares.

New York, July 22.—Standard Oil, 4.65.
